

AMENDMENTS TO THE CLAIMS

This Listing of Claims will replace all prior versions, listing, of claims in the specification.

LISTING OF CLAIMS:

Claim 1 (original) A self-adhesive frame applied in package of field emission display, which comprising: a main body frame having the cathode plate sealing surface and the anode plate sealing surface; and a fixing side strip extending from the outer side of the main body frame; wherein the cathode plate sealing surface and the anode plate sealing surface have been spread a coating of glass glue, the self-adhesive frame being treated by a heat treatment in high temperature; wherein the fixing side strip has a predetermined glue spreading area for the temporary fixing with the cathode plate and the anode plate.

Claim 2 (original) The self-adhesive frame applied in package of field emission display as claimed in claim 1, wherein at the temporary fixing condition, the self-adhesive frame mates with the cathode plate and the anode plate in the position relationship that the fixing side strip is located at the same side of cathode conductor or anode conductor.

MR2349-964

Appln. No. 10/689,686

Reply to Office Action dated 1/17/2006

Claim 3 (original) The self-adhesive frame applied in package of field emission display as claimed in claim 1, wherein the shape of the main body frame is rectangular.

Claim 4 (original) The self-adhesive frame applied in package of field emission display as claimed in claim 1, wherein the cathode plate sealing surface and the anode plate sealing surface are parallel mutually.

Claim 5 (original) The self-adhesive frame applied in package of field emission display as claimed in claim 1, wherein the spreading action of glass glue to the cathode plate sealing surface and the anode plate sealing surface is by screen printing.

Claims 6-7 (canceled).
